PROJECTOR ACCESSORIES

WPD-700

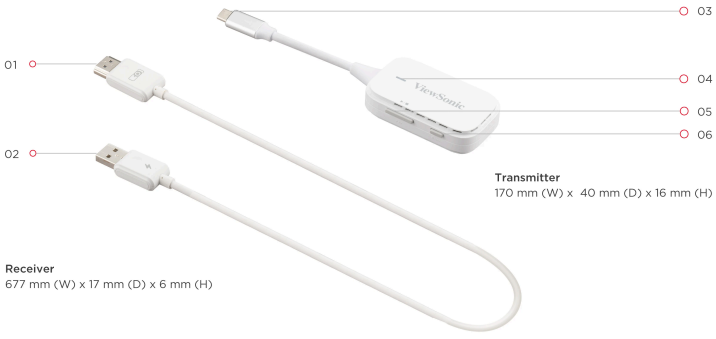

Key **Features**

- Plug-and-Play: Direct connection without network setup or software installation
- Peer-to-Peer Connection: Ensure stable and secure connection via an exclusive network
- Smooth Display: Less than 80ms latency with support for up to 1080p resolution
- DRM-protected Content Streaming: Wirelessly display content from Netflix, Disney+, and more
- Long-Range Wireless Transmission: From up to 30m away without long HDMI cables

Product **Description**

The ViewShare WPD-700 is an intuitive, stable, and secure wireless casting solution. Offering plug-and-play functionality, it enables users to cast content wirelessly from their mobile devices without network setup or software installation. Using a peer-to-peer connection, it ensures transmission stability and security, and simplifies guest access for content sharing. The WPD-700 provides smooth streaming with less than 80ms latency and supports up to 1080p Full HD resolution. Additionally, it enables wireless streaming of DRM-protected content from popular platforms like Netflix, Disney+, and more. With a transmission range of up to 30m, it allows you to cast content wirelessly even in large spaces, saving the cost of long HDMI cables. The transmitter features a USB-C port, providing direct compatibility with most mobile devices without extra adapters, including the latest iPhone 15. Furthermore, its ability to pair with up to 8 transmitters makes switching between multiple presenters convenient with a single click.

1. HDMI
2. USB-A
3. USB-C
4. LED Indicator
5. Pair Button
6. Reset Button

SPECIFICATION

Output Resolution:	Up to 1080p 60Hz
HDCP Support:	HDCP 1.4
WiFi:	5G
Latency:	<80ms
Transmission Distance:	Up to 30m
Screen Mirror/Extend:	Yes

TRANSMITTER

Connector Type:	USB-C x 1
Power Input:	5V/1A
Dimension (WxDxH):	170 x 40 x 16 mm
Net Weight:	37.5g

RECEIVER

Connector Type:	HDMI x 1, USB-A x 1
Power Input:	5V/0.5A
Dimension (WxDxH):	677 x 17 x 6 mm
Net Weight:	19g
